Playtest report sheet: *Game Title*

Person(s) responsible	Kostas
Version	Proto 1
Date	
Venue	Uni library
No. of playtesters	2

Goal	See if the games mechanics works together
Main questions	• Can players understand the flashlight mechanism? • Can players multitask? E.g. control flashlight- escape the ghosts and try to solve the puzzles
Observation points	• How many times does the ghost catches the player# • How many times does the flashlight run out of battery
Observation notes	• Both players managed to find the fuse and open the generator. • Player 1 wasted the more than half of flashlight's battery • Player 2 used the flashlight on when the ghosts was nearby • Player 1 found the fuse but forgot where the generator was • Player 2 found the fuse but also forgot where the generator was • Player 1 died 2 times • Player 2 didn't die

Revision ideas	
High priority	Try to make the generator room more rememberable
Consider for the future	-
